"Cicada"

Heard the thunder clap
Saw the sun leave the sky
And it took me back
To the look in your eyes

Remember every step
Every blade of grass
No I can't forget
Your bare feet and your summer dress

All this time I'm waiting underground, way down
Everything is screaming cicada

You and me, we gotta circle back
How it used to be, yeah just like that
Wanna make you mine, can't get enough
'Cause it won't be long till mother earth's gonna
swallow us up.

All this time I'm waiting underground, way down
My love is not fading, cicada
Hear me buzzing 'round, summertime
Everything is screaming cicada

All this time I'm waiting underground, way down
My love is not fading, cicada
Hear me buzzing 'round, summertime
Everything is screaming
Everything is screaming
Cicada
Everything is screaming cicada
