You talk of yourself
We're the ones who can't sleep at night
You talk of yourself
You talk of yourself
We're the ones who can't sleep at night

Mankind's frozen tears
Mankind's frozen tears
Mankind's frozen tears
Mankind's frozen tears
Just staring at
Just staring at
Just staring at

These are the days it must happen to you
These are the nights that you must live through
These are the days it must happen to you
These are the nights that you must live through
These are the days (these are the days)
Mankind's frozen tears
Mankind's frozen tears

Just staring at
Just staring at
Just staring at

You talk of yourself
We're the ones who can't sleep at night
You talk of yourself
You talk of yourself
We're the ones who can't sleep at night
