Fortune like a moon
You I change a book
Under my table
Dare'll in it's chain

Marching to who's out
Terrorize a bee
Come and join the fleet
Our children are away

The fools they are selling
The fools they are selling
The stars in the heaven
The stars in the heaven

They were selling
They were selling
Selling our own (x5)
There are seven (x4)

The fools they were selling
The starways to heaven
They were selling
They were selling
They were selling
(Repeat x4)

They were selling (x4)

Choke choke, the devil will evoke
Thirst thirst, suffer till you burst
Cry cry, fry up in your eye
Die die, knowing just as I
(Repeat)

Choke choke
Thirst thirst
Cry cry
Die Die
