"Proud Evolution"

Visit "[Proud Evolution](#)" on MotoLyrics.com

A sense of dread in our heart
And we wish the sense would fly away
In the night we're finding out
It will play

Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be careful

Our eyes can't tell how deep inside of the hundred
billion potholes you can step in without knowing that
you have

You should be careful
You should be careful
You should be careful
You should be careful

(Echoes and mumbling?)

Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be careful
