"Secret"

Visit "[Secret](#)" on MotoLyrics.com

I wish the dawn may know nothing
Of the name that I told the night
I wish like mist in the morning
It drifts away silently to hide away
And fade away...
To hide away...

So carry away to never see light of day
Keep hidden away for eternity - a secret song

I dream the day could proclaim the love
Of the name that I told the night
I dream that glorious daylight
Uncovers the mystery I hide away
And fade away...
To hide away...

So carry away to never see light of day
Keep hidden away for eternity - a secret song

I pray to hid from the sunset
The secret I told the day
I pray to carry away the love
And drift away silently and hide away
