"Divine Intervention"

Visit "[Divine Intervention](#)" on MotoLyrics.com

Brothers fighting brothers
Lovers fighting lovers
People barely caring anymore
Nations hating nations
Love is lost in the equation
One world and there's still so many wars

It's like this whole world's caught in
Some crazy storm

We could use some
Divine intervention
God, if you're listening
Won't you help us
Find a solution
To all this confusion
(Ooh)

Lives in desperation
A world of devastation
No one knowing where it's gonna go
We got too many too hungry
And we gotta stop this suffering
And I don't think we can do it on our own
Our own, oh

And right now we need something
To save our souls

We could use some
Divine intervention
(Divine)
God, if you're listening
Won't you help us
Find a solution
To all this confusion
(We sure could use some)
(Some, oh, yeah)

Show us that a change is gonna come
Help us to replace the hate with love
(With love)

Overflow our hearts with kindness
(Ooh. ooh)
Help us lift the clouds out of the way

We could use some
Divine intervention
(Divine intervention)
So God, if you're listening
Won't you help us
Find a solution
To all this confusion

We need some divine intervention
Oh, yeah
Oh, oh, oh, oh, ooh
Said oh yeah
Ooh

We gotta find a way
Gotta find a way
We've gotta find away
Gotta find a way
You know we need you God

We've gotta find a way
Gotta find a way
Gotta find a way

We've gotta find away
Gotta find a way
You know we need you God

Oh, oh, oh
