I can't wait forever
Let's get it on
Come and get me
It's now or never baby come on

No no
I know what's on your mind
I told you time and time again
That this is gonna last
Yeah
We are used to be as
Only history
Dont wreck the prison living in the past
Yeah

Don't walk on by
Baby cause we gotta try
To keep this feeling going on and on
With a love so true
We gotta work it through
What we've got together it's so true

I wanna get with you
(Let's get together baby)
I wanna get with you
(It's now or never)
I wanna get with you
(There's nothing better)
I wanna get with you
(It can't wait forever and ever no)

(Whoa)
(I wanna get with you)

I've had to draw the line
Cos I could never read the signs
When things were going wrong
I never realised that you were hypnotised
In me but now I can see
Oh yeah yeah

But I want you back

Baby that's a fact
But keep this feeling going on and on
Yeah
With a love so true

We gotta work it rthough
What we got together it's so strong

I wanna get with you
(Let's get together baby)
I wanna get with you
(It's now or never, never)
I wanna get with you
(There's nothing better baby)
I wanna get with you
(It can't wait forever)

You're the one and only
You're the light, my everything
No one else could ever show me what I need to set me
free

I wanna get with you
(Let's get together baby)
I wanna get with you
(It's now or never, never)
I wanna get with you
(There's nothing better)
I wanna get with you
(I can't wait forever, ever)

I wanna get with you
(Yeah yeah)
I wanna get (Whoa, yeah) with you
(It's now or never honey)
I wanna get with you
(There's nothing better)
I wanna get with you
(It can't wait forever, ever)

I wanna get with you
(Let's get together baby)
I wanna get with you
(It's now or never, never)
I wanna get with you
(There's nothing better)
