I just want a, uh, uh, I want a, uh uh, come on

So you full of every little anecdote
I wanna hear ya hit a different note
You're the way I wanna rock your boat
Just right, just right

I'm in a place you've never been before
So check yourself before you bang on my door
Be prepared and ready to explore
We're gonna take this higher

I don't mind those accusations
They're just a one way conversation
And I don't need no complications
Alright, alright

We don't have to go the distance
So drop your resistance
Feels much better when you got assistance
You're gonna be mine

I don't want you to treat me right, I just wanna, uh uh
And I don't need you to spend the night, I only wanna,
uh uh
Don't assume you're doing me wrong, if you wanna, uh
uh
I just wanna go all night long, yeah

Peel the wrapping see what's underneath
Licking your lips 'cause it taste so sweet
I'll make your day, I'll make your whole damn week
If you, if you

Give me a feeling like I've never known
No limitations you can make your own
And when it's over don't look over your shoulder
I'll get it up and go

Pick me up on every innuendo
Play me like the new Nintendo
When you're done, it's around we go

Back to the start

There's nothing wrong with being superficial
Load me up pull the trigger just like a pistol
And then there goes the whistle
It's all over now, oh

I don't want you to treat me right, I just wanna, uh uh
And I don't need you to spend the night, I only wanna,
uh uh
Don't assume you're doing me wrong, if you wanna, uh
uh
I just wanna go all night long

I just wanna be with you
Won't ask you any questions
I don't care where you take me to
Just don't make me your possession

No matter what goes down tonight
We'll go our separate ways by the mornin' light
But till then you gotta do me right
But I don't need, don't need, oh

I just wanna, uh uh, yeah
I only wanna, uh uh
If you wanna, uh uh

I don't want you to treat me right, I just wanna, uh uh
And I don't need you to spend the night, I only wanna,
uh uh
Don't assume you're doing me wrong, if you wanna, uh
uh
I just wanna go all night long

I just wanna, uh uh
I just wanna, uh uh
I just wanna, uh uh
I just wanna, uh uh
(All night long)

I just wanna, uh uh
I just wanna, uh uh
I just wanna, uh uh
