I'm not looking for no mystery  
Gotta be real love I'm nobodies game  
Not a chance for you to move from the dancefloor  
To the bedroom, gotta work your body more

Chilling with my friends  
I hope that I'm gonna see you again  
I'm feeling like my mind is being played  
by someone I don't know

I'm transported to another time or place  
with one glisten of that familiar face  
Even though I promised I would never fall  
For someone like you

If you're feeling tight, and the mood is right  
Lets get working, ooh ooh  
Put your hand in mine, let me move in time  
Start flirting.. working

All I want is someone to keep,  
Longing for a long that's true  
Maybe a love that's deep.

Won't you show me a way I can please you  
Won't you show me a way I can please you  
Make me feel nice  
You won't have to show me twice.

I see you standing there,

Shall I approach you, I don't know if I dare  
How would you be if I revealed what's on my mind

If I explained just how I feel  
Would you make my fantasies become real  
Should I take a chance to put my feelings on the line  
Won't you give me a sign

If you're feeling tight, and the mood is right  
Lets get working, ooh ooh  
Put your hand in mine, let me move in time

Start flirting.. working

Lets get working, lets get working,  
lets get working, lets get working,  
lets get working, lets get working...

If you're feeling tight, and the mood is right  
Lets get working, ooh ooh  
Put your hand in mine, let me move in time  
Start flirting.. working  
If you're feeling tight, and the mood is right  
Lets get working, ooh ooh  
Put your hand in mine, let me move in time  
Start flirting.. working
