Think you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
Better take a look
Cause baby I'll be walking
Don't play hide and seek
Better practice what you preach

They say that love is blind
It's only for a short time
Couldn't see the woods for the trees
Took me for granted but now I smell the coffee

Woke up, no more blind folds
I got news for you

Think you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
Better take a look
Cause baby I'll be walking
Don't play hide and seek
Better practice what you preach preach preach preach

So your hanging with your friends and
Expect me to come running
Its like we speak a different language
I say yeah you say no but its just maybe

Woke up, no more blind folds
I got news for you

Think you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
Better take a look
Cause baby I'll be walking
Don't play hide and seek

Better practice what you preach preach preach preach

Think you got me hooked
Let me tell you something
You misunderstood
You won't catch me jumping
Better take a look
Cause baby I'll be walking
Don't play hide and seek
Better practice what you preach preach preach preach

(You think you got me hooked)
No more blind folds
I got news for you
