(X)

Hey yeah

(Uh-oh, uh-oh, uh-oh, uh-oh)

Ooh, ooh, yeah, yeah

(Uh-oh, uh-oh, uh-oh, uh-oh)

Ooh, hey

(Let's go)

(X, X, X, X)

6 to 5

I'm two times

We're still around

Working night and day

We're still the same

Still getting down

Don't hate the haters

But the instigators

Won't make us bound

You can play our game

You can take our name

But you can't take our sound

You don't know how we like to flow

Got you all in tow

See we're in control

You can never stop us

Cos' we rock

And now we're gonna hit the top

Don't give a f if you like it or not

Come and see what we got cos you know we're so  
damn

Extraordinary

Extra naughty baby

Got the necessary

Flow, whoa, whoa, whoa

Ex-communicated

Extra stimulating

Just like a rocket

We'll explode

Oh

Wanna take the credit  
But we won't forget  
The way you tried it on  
Said we'd disappear  
Said you'd give us a year before we were gone  
But I bet you never thought  
We'd be together for so long  
So you turn around and look at you now  
You like our songs  
(Ooh, yeah)

You don't know how we like to flow  
(You don't know how we flow, oh)  
Not your average joe  
Keep you on your toes  
You can never stop us  
Cos' we rock  
And now we're gonna hit the top  
Don't give a f if you like it or not  
Come and see what we got cos you know we're so  
damn

Extraordinary  
Extra naughty baby  
Got the necessary  
Flow, whoa, whoa, whoa  
Ex-communicated  
Extra stimulating  
Just like a rocket

We'll explode  
(Yeah)

Anybody can affect your mind  
So many people ass-licking  
But we smile and grind  
Cos we're not the type to believe the hype  
We ain't faking this it's the way it is  
(Oh)

Don't wanna run  
Don't wanna hide  
There's more to us that meets the eye  
We do what we have to  
We do it in style  
This has to be our time

Rap By Jack Jones:  
Came on the track  
Now the X is back

With a big ass chain  
And some Gucci slacks  
What you think of that  
Where the feds be at  
Another 16 or adjust too tight  
Teach new moves  
Like a kung-fu sensing  
Give it to you all like Bush and Kayne  
Nobody said how much it costs  
Blow up spots like I'm awful tough  
Could be rough with stuff  
Could be earning bucks  
I'll be your con trail  
Like you are enough  
(You don't know)  
Never lied of course  
But he blew off course  
And if you ain't Luke then  
Don't use the force  
Teachers watch how we get down  
I came to get low with the X right now  
I'm not saying she's an X right now  
But it could be you  
Better watch your mouth

X  
Extra naughty baby  
Got  
Flow (whoa, whoa, whoa)  
Ex-communicated  
Extra stimulating  
Just like a rocket we'll explode

Extraordinary  
Extra naughty baby  
(Extra naughty)  
Got the necessary  
Flow, whoa, whoa, whoa  
Ex-communicated  
(Communicated now)  
Extra stimulating  
Just like a rocket  
We'll explode

We'll explode, oh, oh, oh, oh  
X
