Baby you have to know
Love is the way you have to go
How many times I used to cry
All by my own, I was alone
Say that our love will never done
Love is a miracle to me
How many times I try to hide
Tell me no lies in this romance
Baby please give me a second chance
Love can be pleasure, love can be pain
Love can be a mystic time again and again
Give it up, give it up, you never know
I don't want to live my life without you
Can you imagine, I wonder why
Making together our love alive
Give it up, hang it up, you never know
I don't want to spend my life
I'll never let you go
No matter what I'm going through
I've never felt this way before
Hey, where do you go

Love can be boring, love can be fun
Love can... walking...away in the sun
Give it up, give it up, you never know
I don't want to live my life without you
I wanna hold you into the night
Making love together till the morning light
Give it up, hang it up, you never know
I don't want to stand my life
I'll never let you go
No matter what I'm going through
I've never felt this way before
Hey, where do you go
