I know it seems I'm living,
But I just love to play along
So confused so positively
I know I've had quite enough

Leer near me
Hear fear free
Sometimes the light is brighter dark

De ja vu leaves me digging
I don't ever want to die
On my feet, I've found I'm sitting
So could it be? There's something more?
I know a place, but I'm here

So, leer near me
Hear fear free
Sometimes the dark is lighter bright
Sometimes your dreams are right
Sometimes you'll find me
