A verse
In the universe
A hearse
Or worse
Extinct for something new
Sew
Or leave it on the rope
You only owe
Just leave it in your room

I just want to feel
Make it warm and aesthetic
I just want to feel
Constantly recreate

Go
No one has to know
A doe below a place to calmly mate

Fine
I'll take it as sign
Mankind is blind
Could we repopulate?

Roses hurt
Leave your worth
Roses hurt

He can start a family
And leave
And see
If he could make it grow
