"Shut Up"

Peel away my mind
Please don't say I'm fine
Cause you don't even know me

He's alright
He's alive

Kill the pain
Milk the fame
Be the same
Feed the flame

Stealing all my rest
The ceiling falls the best
And you don't even notice

Shut up Shut up Shut up Shut up Shut up
Shut up Shut up Shut up Shut up Shut up

You concern, you console, you connect, you control
You conceal, you confect, you confust, I conject
You condone, I contest, you confirm, I consent
You constrain, You can finally say, "You know you love
me"
