Feigned, waned, faked emotion
Same, lame, painful notion
Do you expect a bone to chew on?
Or would you rather chase a new car?

Traveling in and out of trust
Is it me or is it us?
Hide behind a wall of lust
I hear what you say just, just, just

Your eyes implying lies
They look, they blink, they cry
And with my ounce of pride
I'll put my doubts aside
Ejaculate the reason
Of making my decision
To listen to your reply
But don't lie because I can see it in your eyes

I, I, I feel it
You, you, you conceal it
Try and hide it
Why do you try?

No one is in your fucking way
You've wanted to leave so leave today
Learn how to love on your own
You're hurting the ones you love the most
The further you plunge the more you owe
You're gonna die alone
You're gonna die yeah, yeah, yeah
