"Star Explorer X"

Visit "[Star Explorer X](#)" on MotoLyrics.com

You could fall into a sunrise,
You could awaken at dusk,
In the world you must be open,
In this world you can't find fault,

You might realize we're changing,
You might realize I'm wrong,
In this world you can't be frozen,
In this world you might fall short,

Alien nights...

Cover it up, hover on up, get in this spaceship rocket,
Remove it from park, set it for far, put on your
antennae,

Explode warp speed!
This ain't a picture at the drive-in,
This is your life flashing back.

Hover on up, cover it up, get in this spaceship rocket,
Remove it from park, set it for far, put on your
antennae,

Alien dreams,
In alien nights,
With alien lovers,
Living alien lives.
