

Chico "Chemistry"

Visit "[Chemistry](#)" on MotoLyrics.com

You I want, You I need

Girl you i want, you

oh you i need, you i want

you i need, you

oh just as you walked in

my eyes were on you watching

just incase you felt the same feeling

to speak your mind like i'm revealing

oh you looked at me and honestly

i felt you had a vibe for my company

and personally this must be destiny

you have an interest that brought out,

the best things in me

((CHORUS))

oh its chemistry,

between you and me

feel the energy,

we were meant to be together forever you see

i've got the remedy,

like coke with henessey,

chemistry

i've got a crush on you

ain't gonna rush on you

no fight no fuss on you

jus need that bus on you

now i give u my time ...

of all these thoughts in mind

i'm fine so lets intertwine

((CHORUS))

oh its chemistry,

between you and me

feel the energy,

we were meant to be together forever you see

i've got the remedy,

like coke with henessey,

chemistry

oh just as you walked in

my eyes were on you watching

just incase you felt the same feeling

to speak your mind like i'm revealing

oh you looked at me and honestly

i felt you had a vibe for my company

and personally this must be destiny

you have an interest that brought out,

the best things in me

((CHORUS))

oh its chemistry,

between you and me
feel the energy,
we were meant to be together forever you see
i've got the remedy,
like coke with henessey,
chemistry
girl you i want, you i need
oh you i want, you
oh you i need, you i want
oh you i need, you
girl you i want
you i want
girl you i want
