HEY! What time is it?
Chi-Chico
What time is it?

Sometimes it feels so good
i cant feel its so bad
My inner clock is tickin'
And the blackbeat drives me mad

It's erotic, exotic, hypnotic thats for sure
Put a smile on your face
To take you to a place you've never been before

(Get up)
Let it all hang out
(Jump back)
You wanna scream and shout!

Don't you wanna get out of line
Ev'rybody say what time is it
(What time is it)
It's Chico Time

Well, You can get delerious
if you take life too serious
It's Chico Time

Now, get up in this song
You can't do nothin' wrong
In front of the mirror like there's a party going on
If you want it, you got it, go get it
Baby, can't you see
Don't fantisise, just realise
Be happy to be free

(Get up)
Let it all hang out
(Jump back)
You wanna scream and shout

Don't you wanna get out of line
Ev'rybody say what time is it

(What time is it)
It's Chico Time

Well, You can get delirious
if you take life too serious

Shake it, lawdy
Come on baby, funk my body
Do it good and do it naughty
If you don't dig reality then
Baby just lay it on me
It's Chico Time

Go Chico, Go Chico, Go
(Go Chico, Go Chico, Go)
(Repeat)
Hand in the air, let me see you clap you're hands
Let me hear you all you Chicettes
All you Chicos

You can get delirious
if you take life too serious
You can get delirious
if you take life too serious

It's Chico Time
