

Life In Your Way "Reach To The End"

Visit "[Reach To The End](#)" on MotoLyrics.com

This is for all those who search for something more
Never give up, never give in
When words have no meaning because your time in
hell has left you cold and alone
What was thought to be good in the world gave you the
back of their hand
The breath of life has become empty, without feeling
So you, bury your head and distance yourself
The dreams still wake you in tears and nightmares,
battery and anguish
Tears, nightmares. Battery and anguish
All that's good in the world can be wrecked in such a
short time
and then you'll wonder is the end near
Take a chance, just one time. Make ready your heart
tonight
And you sing:
Is this the end? This is all I have
Love is here now that you're at your end
