From the first time I saw your eyes,
I have to admit I was hypnotized.
I never thought we'd feel this way,
It's getting better with every day.

Everyone before I felt so used,
With each time I'd turn to booze.
But with you I'm completely new,
That's why I'm so glad I met you.

Reminisce of our new years kiss,
To me it was a moment bliss.
It's now a memory I'd hate to miss,
I'll never forget our new years kiss.

From first at last I saw your eyes,
My mind admits I'm hypnotized.
I think about you all the time,
How often am I on your mind.

Reminisce of our new years kiss,
To me it was a moment bliss.
It's now a memory I'd hate to miss,
I'll never forget our new years kiss.
