

Life Of Agony

"Eve Of Destruction"

Extinction of evolution, In front of your eyes
No god can save us, From our disgrace
No god can save us, From this destruction

People running everywhere, Insanity beneath their
souls
Primitive life will reborn!

Instinct will grow in you , Only the strong survive
Hiding themselves in the dark

Fighting, to survive!
Everywhere anarchy will reign, on every body!
Murder in the middle of the street,
You hear agonizing scream!

Rotting bodies in the street,
In cities, another every second!
Human waste consume by everyone!
And it will be that kind od life at the END!
