Agony - Megatonic

Feel the pressure, From this aire BURST!
In a fraction, world will change.
In a fraction, world will DIE!
As I try to escape, from this world.
As I try to escape, from this BURST!
As I try to escape, from this world.
As I try to escape, from this BURST!
Radiation!
Hot wind touches your skin, to burn you alive!
Even if you hide somewhere people can reach for you!
Even if you live you die by catching diseases trapped in
the air!
As I try to escape, from this world!
As I try to escape, from this BURST!
