A wind of hate, as killed this world!
Lifeless corpses of the last RACE!

The living look dead and death is so beautiful,
As you live with those disease!
Man as create these insanities,
With cash in their brain , the power to destroyt!

Preach all their lives for peace and hapiness.
The lies they tell you! Will kill you TODAY!

Seems like your bowels will get out of your chest.
Nausea, vomiting, headache will last all day!
Your life will turn to nightmare as the disease grow in
you,
Extinction of the human race!

Madness! Takes our lives away
Madness! Invention of ours!

Brain in search of power, The power to erase
All the peoples who live their life not caring about cash!

Madness! Takes our lives away!
Madness! Time to DIE!
