

Life Of Agony "Neg"

Sea shells raise hell to the soles of my feet
Why don't you open your minds to the sweet?

And I tripped and fell down
And I tripped and fell down
And I tripped and fell down
And I tripped and fell down

Falling down deeper, down deeper within
Love me and I'll love you, so make love to me

And I tripped and fell down
And I tripped and fell down
And I tripped and fell down
And I tripped and fell down

Falling down deeper, falling down deeper, deeper
And there's only one way to fall
Life's an illusion, lost in seclusion
Life can be groovy, tasty to all

And I tripped and fell down
And I tripped and fell down
And I tripped and fell down
And I tripped and fell down
