I've been choosed for breeding.
'Cause my semen is good,
World repopulation...
I'm the next generation!
As I'm fucking her,
There's nothing I can feel!
Preparing all the spaw,
For another WORLD WAR!!!

I breed almost fifty times a day,
My seed to conceive a better army!!!

Even if you're sick,
You must accomplish the work,
That themselves they can't do,
Or something will appen to you!!
When you're job is done.
They kill you and chop you!
For feeding the breeders,
PERPETUAL BREEDERS!!!

I'll eat you raw!

Waiting in my room
For my next screw !
Near of my doom
Condemened to be stewed!
