Show me anything you want to
Show me your peaches and your cream
She looks good to me
Pretty with her head between my knees
She knows, she knows, she knows
I say wet your lips
Wet your lips tonight
Wet you lips until the early morning light
Show me anything you want to ooh ahh ahh
She wanna show me
She wanna sucka, sucka, sock it to me
Wanna show me, she wanna show me
Wet your lips tonight
You're not running keep it coming

You're not running away
Girls around the world wet you lips
Give the nuts to the squirrels
Wet your lips
Wet your lips until the early morning light
I said wet wet wet
Waaaaaahhhhhh
