stay right here
and speak to me
i want to feel you
i need to hear you
you are the light
thats leading me
to the place
where i find peace, again

you are the strength
thats keeps me walking
you are the hope
that keeps me trusting
you are the light
to my soul
you are my purpose
youre everything
and how can i stay here with you
and not be moved by you
but you tell me
how could it be any better than this
yaya

you calm the storms
and you give me breath
you hold me in your hands
you wont let me fall
you stole my heart
and you take my breath away

would you take me there
take me deeper now

and how can i stand here with you
and not be moved by you
would you tell me how could it be any better than this
and how can i stand here with you
and not be moved by you
would you tell me how could it be any better than this

cause you are all i want
youre all i need

youre everything, everything
repeat 4X

and how can i stand here with you
and not be moved by you
would you tell me how could it be any better than this
and how can i stand here with you
and not be moved by you
would you tell me how could it be any better, any better
than this

then how i can i stand here and not be moved by
you.....

would you tell me how could it be, any better than this
