Future lives in the minds  
While we fall from behind  
Missing light from the trees  
Missing you, look at me  
From afar to a sound  
From a fear we expel  
Give it life  
Make it breathe  
Spinning wheels  
Into words we believe

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen

Hear the thunder and rain  
Feel our heart fill with pain  
Travel through time and space  
Where did love lose its place?  
Can we find who we are  
If we stare at a star?  
And the silence, it screams  
The is nothing that is as it seems

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen

Can we find who we are

If we stare at a star?  
And the silence it screams  
There is nothing that is at it seems

Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen  
Everybody talk but nobody listen,  
Nobody listen, nobody listen
