"Right Back Home"

Visit "[Right Back Home](#)" on MotoLyrics.com

Oh I am feeling my way through the dark
The thrill is gone and I'm right back home again

So much trouble now there's trouble no more
You showed me the way and I'm right back home again
Right back home again

When I'm lost yeah I'm lost
And I'm so alone

In and tumbling out in the night
Was 5 long years and I'm right back home again

When I'm lost and I'm lost
And I'm so so alone
When I'm tired broken down
Won't you take me back home
'Cause you're all I need

I woke up under
Under a spell
I play old feelings
That's right back home again
She's right back home again
Right back home again
You know right back home again
