Love inside your head now
Where you you like to find me
And I treading your borders
We are into the deep

Life's journey in slow motion
Looking how days are upside down
In my hands feels just like a notion
Til you come back this tears aint running now

Time is no illusion
Every hour I spent alone

Life's journey in slow motion
Looking how the days are upside down
In my hands feels just like a notion
Til you come back the tears aint running now

Life's livin' in slow motion
Looking how the days are upside down
In my hands feels just like a notion
Til you come back the tears aint running now
