How did I end up here
Closer to nowhere in the
Middle of nothing and I'm
One step back from where I was
Spinning in circles
Gets old after awhile

And you say if I fall I will
Fall straight into your arms
Should I trip over my feet
And if I start to slip I will
Slip right onto my knees
Into the center of your hands

Because maybe
Someday I can learn to trust you
And just stop thinking with my head
Cause maybe
Someday I could learn to let go
I lose control but that's okay with me
I lose control but tell me what is wrong with that

Why do I have to know everything
And why does everything always have to make sense
Why do I always have to have you figured out
Cause I just want to take your hand

Cause you say if I fall I will
Fall straight into your arms
Should I trip over my feet
And if I start to slip I will
Slip right onto my knees
Into the center of your hands

Because maybe
Someday I can learn to trust you
And just stop thinking with my head
Cause maybe
Someday I could learn to let go
I lose control but that's okay with me
I lose control but tell me what is wrong with that

What's wrong with that
What's wrong with that
What's wrong with that
What's wrong with that

What's wrong with maybe
Someday I can learn to trust you
And just stop thinking with my head
Cause maybe
Someday I could learn to let go
I lose control but that's okay with me
I lose control but tell me what is wrong with that
What's wrong with that
What's wrong with that
What's wrong with that
