Verse I:

It's a better day, what would you like to do?
do something that you like
It's another day when you gonna find your truth
truth...
Everyday you wanna live a different life
you're chasing your destiny...
If you do what you want you'll be happy...

Chorus:

I missed it all the time
but there is nothing I can do
I used to dream about
There's another day I want to change my life
I used to feel love
but there is nothing I can do

I used to dream about
There's another day I want to change my life

Verse II:

It's a better day I try to make things right
to figure out who we are
You can't change now, just you waste your time
your time...
It's a better day, live as if you'll die today!
Are you thinking also in this way?
You should try to be true to yourself everyday

Chorus 1X

Chorus 2X

used to dream...
