save yourself while you can
watch your back because i'm coming
wanna listen to me cry, i'm gonna try
i'm back, one back for you to turn on
just face it
what you're thinking about is impossible
i can't take anymore listen to me
come to my room, in my bed
but the whore inside you never goes away
in the end it's o.k.
but the hole inside you really shows
come with me before
now you're regretting what you're doing
wanna listen to me cry?
i'm gonna try
one slap in the face was all i needed to face it
and now i'm thinking about my situation, my situation
come to my room, in my bed
but the whore inside you never goes away
in the end it's o.k.
but the hole inside you really shows
can you feel it?
the commotion
do you feel it ?

don't tell me no
and if you don't
let the games begin!
that scab from the past that you showed to me
wasn't from me
too much television
you lay by my side
when everything's fucked
do you know why?
another slap in the face but not another for me
one foot in the mouth another in the game
why do you regret what you want?
why do you resent me?
when all that i wanted was you
i've thrown myself away now because of you
what more do you want from me?
how does it feel?

what do you want?
come to my room, in my bed
but the whore inside you never goes away
in the end it's o.k.
but the hole inside you really shows
come to my room, in my bed
but the whore inside you never goes away
in my room, in my bed
