People of the world  
Broken, Poor, Define Filthy.  
Livin' life on their knees for your lies and deceit  
BUT  
I do remember days when i was so blind  
...And refused to see  
Refused to see everything in front of me

We dig our own graves with the money we pay  
Funding streets ripped BENEATH OUR FEET  
Open up your eyes and see

They're liars, Facists  
The murder of everything

I don't know how you sleep at night  
With our blood on your hands  
And all the years that passed us by

I do remember days when I was so blind and refused to  
see  
Everything in front of me

No, no waking up, with eyes glued shut, Our  
Democracy  
dies,  
No, no waking up, with eyes glued shut, when will we  
live again

Together we are the enemy  
We are the enemy  
The enemy
