I can see you from across the room  
It's time to make my move  
I just wanna get next to you girl  
I just wanna make a mess of your world  
And everybody's looking at you  
But no one's walking out with you but me  
So baby baby take my hand  
Lets get out of here  
Everybody's kinda weak (fucking cheap), lets hit the  
road  
What kind of drinks do you need to make you wet?  
How long til I'm in your bed?  
I just wanna get next to you girl  
I just wanna make a mess of your world  
You're so glamorous  
You're so scandalous  
So god damn scandalous
