They say Jesus Christ wants to be my friend  
The devil's knocking on my door again  
Drinking whiskey, driving risky  
I wonder if the world will miss me  
Well that's how the story goes  
Life's a bitch and then you die  
Ladies, ladies don't be shy, you wanna be my girl  
tonight?  
We're so fucking out of control  
So fuck your problems, raise your drunk and just let  
'em go  
Just let go  
I know I'm going to hell  
So who's coming with me?  
I know I'm going to hell  
And you wanna know what?  
I just don't give a fuck  
That's right I'm living a lie  
That's right I'm ready to die  
So lets fucking party  
Cause tonight baby we just don't give a fuck
