Just let me get it ahh
Just let me get it get it

Let's ride, Let's ride
One time

I don't mean to make you sound cheap
By asking you to be my freak
But what if, see what you start babe
Up and down with mine, babe
Here's my beeper number
Give me a call
Tell you man, that you're goin, to the mall
So we can be alone
So he won't have to know
I keep his coffee warm

We can get sexual, get sexual
Noone has to know
It's you and me, and me
He won't know, she won't know, about us

We can get sexual, get sexual
Just give me a call, get sexual
And we'll be on, alright
On the down low, baby

I can't beleive your serious
'Cause what if somebody sees us
And goes back and tells somebody, yeah
That I've been diggin' you out
You know I really wanna do you girl
Wanna play on top of your world
So if we do this babe
We gotta drive our way outta town
So we can't be found

We can get sexual, we can get sexual
Noone has to know, oh
It's you and me
He won't know, she won't know, about us

We can get sexual, we can get sexual
Just give me a call, ohhh
And we'll be on, be on
On the down low baby, down low

Everything he won't do
Imma do it twice
Kiss you on your lips girl
The ones between your thighs
Imma get you high, when I go low

Just let me get it, ahh
Just let me get it get it

We can do a lot
In a little bit of time
More than just a something
We do it on the side
We can both know that it's too strong, strong, yeah

We can get sexual oh babe, love
And me, oh

We can get sexual, get sexual
Just give me a call
And we'll be on
On the down low baby, on the down low baby

Everything he won't do
Imma do it twice
Kiss you on your lips girl
The ones between your thighs
Imma get you high
When I go low
He won't know and she won't know, about us

We can do alot
In a little bit of time
More than just a something
We do it on the sides
We can both know that it's too strong
