As i stepped inside
This dark cathedral
Was glad to see familiar faces

Chorus:
Are we dying?
Have we outlived ourselves?
Are we gone?
Has our flame burned itself out?

Why are fresh tears falling?
White roses all around us now
A little prayer, signaling the end

I made my way to the centerpiece
And saw our own faces from the glass

(repeat chorus)

Why are fresh tears falling?
White roses all around us now
A little prayer, signaling the end

Enter the wake of our design
A funeral to end the last embrace
Enter the wake of our design
A funeral to end the last embrace

(repeat chorus 2x)
