I watch the sun go down when there's nothing in the  
way  
i love the moonlight on the Mediterranean  
Sometimes we catch a glimpse of perfect happiness  
So we don't treat it like a heavy thing  
And it all goes up in the smoke  
CHORUS  
let it all change (Let it all change)  
You know that some things worth hanging onto  
Anyway  
Let it all change (let it all change)  
You know it's strong after everything we've been  
through  
Anyway  
We don't go around pretending everything is great  
It ain't no secret, I think it's 'cause of we're such good  
friends  
Sometimes we catch a glimpse of perfect happiness  
It's when you try to have everything  
And then it all goes up in the smoke  
(CHORUS)  
It's when you try to have everything  
And then it all goes up in the smoke  
(CHORUS X2)  
Let it all change (let it all change)  
Let it all change
