If you never say goodbye to the best things in your life  
There are things you don't appreciate at all  
So it's best that you don't try  
Holding back the tide  
Are you ever gonna be quite satisfied  
Postcard from heaven  
Go to where you belong  
You'll never find the perfect situation  
Until you know where you're from  
If you ever say goodbye  
No regrets I won't ask why  
And I'll wish you all the best luck in the world  
Should you ever change your mind  
Oh bring back the sunshine  
Are you ever gonna be quite satisfied  
Postcard from heaven  
Go to where you belong  
You'll never find the perfect situation  
Until you know where you're from
