Tired of bein' pushed, bumped and turned around  
Listenin' to the people fightin' next floor down  
Tryin' to find fresh air to breath, just can't be done, no  
I gotta get away and get some country sun  
Look to the sky, the stars are outta sight  
Hidden by the cloud of the city's might  
Hear the sirens blowin' all over town  
Well now, I gotta get away and get some country sound

Take it slow and take it easy  
Lots of time for livin'  
Get out on the road and take a big load off your mind  
Out in the country  
Your time's your time  
And you know that you'll be feelin' right

----- brief instrumental break -----

Layin' in grass that's over two feet tall  
Well now, I'm feelin' good, I'm feelin' clean, I'm feelin'  
small

Breathin' this air can really stone the brain  
Like bein' lost and findin' your way again  
Look to the sky, the stars are shinin' bright  
The smile on the moon just helps to light the night  
Sittin' doin' nothin' is bad they say - ha!  
But sittin' here doin' nothin' keeps me busy all day

Take it slow and take it easy  
Lots of time for livin'  
Get out on the road and take a big load off your mind  
Out in the country  
Your time's your time out on the road  
Take a load off your mind  
Out in the country  
Your time's your time out on the road  
Take a load off your mind  
Out in the country  
Your time's your time out on the road  
Take a load off your mind  
Out in the country
