"Don't Keep My Baby Long"

Visit "[Don't Keep My Baby Long](#)" on MotoLyrics.com

Do you know I took that boy, I've taken him for my best
friend
But he done took my little woman, you know he must be
an enemy I don't trust
Yes if he don't care if my little girl waits, please don't
keep my baby long

Maybe I may hear from her, maybe I may hear from her
one day
Maybe I may hear from her, maybe I may hear from her
one day
And if she don't find me, baby you don't do what you
say

Well I woke up this mornin' just about the break of day
I went to get some milk, all gone away
Oh little woman, hope you'll come back some day,
and when you do, please change your low down ways
