I saw you riding around in your brand new automobile  
I saw you riding around in your brand new automobile  
Yeah, she was sitting there happy with her handsome  
driver,  
at the wheel in your brand new automobile  
Yes, if I lock up on my shotgun again,  
he won't be your driver no more, all right boys, all right  
boys

Now if you love me baby, you'll let me drive your little  
automobile  
If you love me, if you love me, you'll let me drive your  
little automobile  
Yes, I caught a cinch on my driving  
I won't have no wreck at your wheel in your brand new  
automobile
