Your own fault, baby, treat me the way you do  
It's your own fault baby, treatin' me the way you do  
It's your own fault baby, darlin' in treatin' me the way  
you do  
You know I did everything for right, I did everything I  
could to help you  
Whoa you once said that you loved me, yes but I found  
out you were lyin'  
Yes you once said that you loved me, found out you  
were lyin'  
Well you know you can't quit me black woman, and  
there ain't no need in you tryin'  
Whoa but still you my baby, don't make no difference  
what you may do  
Yes you still my baby, don't make no difference what  
you may do  
Yes I know you know little woman, how long I been in  
love with you
