You have to cut right through all the Pepsi lies
And hold on tight, it's a stormy ride
To get through to what you do, like you do

From wheels that never turn and lessons never learned
Searching for a space where dreams will never burn
Through the twists and turns, it's a funny world

Are you the king of cool with a secret sign
Or the king of fools in a pack of lies?
Get through to what you do, like you do

From keys that never wind, a place without a time
Wishing on a star that's never gonna shine
Through the twists and turns, it's a funny world

Get through to what you do, like you do

From wheels that never turn, lessons never learned
Searching for a space where dreams will never burn
Through the twists and turns, it's a funny world

Be everything you are, cherish what is true
Celebrate with those who need to be with you
Through the twists and turns, it's a funny world

Through the twists and turns, it's a funny world
(Through the twists and turns)
Through the twists and turns, it's a funny world
(Through the twists and turns)

Through the twists and turns, it's a funny world
(Through the twists and turns)
Through the twists and turns, it's a funny world
(Through the twists and turns)
