It's late and I am tired  
Wish I could spark a smile  
The place is flying high but right now I wanna be low  
Don't wanna move an inch  
Let alone a million miles  
And I don't wanna go but I know I gotta go

I just want to feel alive

The times you don't wanna wake up  
'Cause in your sleep it's never over when you give up  
The sun is always gonna rise up  
You need to get up, gotta keep your head up  
Look at the people all around you  
The way you feel is something everybody goes through  
Dark out, but you still gotta lie up  
You need to wake up, gotta keep your face up

Seems like the more you grow  
The more time you spend alone  
Before you know it you end up perfectly on your own  
The city's shining bright  
But you don't see the light  
How can you concentrate on things that don't make you  
feel right

I just want to feel all right

The times you don't wanna wake up

'Cause in your sleep it's never over when you give up  
The sun is always gonna rise up  
You need to get up, gotta keep your head up  
Look at the people all around you  
The way you feel is something everybody goes through  
Dark out, but you still gotta lie up  
You need to wake up, gotta keep your face up

I'm looking for more than a little bit  
I'm gonna have to find my way through it  
Gonna leave a mark  
I'm gonna set a spark

I'm coming above the ground

I won't be looking down

The times you don't wanna wake up

'Cause in your sleep it's never over when you give up

The sun is always gonna rise up

You need to get up, gotta keep your head up

Look at the people all around you

The way you feel is something everybody goes through

Dark out, but you still gotta lie up

You need to wake up, gotta keep your face up
