## "My Boots"

Visit "[My Boots](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You might know if you're from around here  
What goes on for half of the year  
Have you seen the queen of the castle?  
Paint this city from ear to fear

If the air was meant to be glitter  
It might not take all yours away  
When she swings she's a heavy hitter  
When she comes you'll ask her to stay

Winter left a cover  
that I'm gonna end up under  
But I've got my boots

When I'm in the summer I forget how much I love her  
When she's in the groove

Oh, it's a love hate romance  
Cause I could watch her dance  
If I've got my boo-ooo-oo-oooots

Something in the way she comes gliding  
Makes me need to fix up the hair  
She gets me to come out of hiding  
And find something decent to wear

Stop and stare!

Winter left a cover  
that I'm gonna end up under  
But I've got my boots

When I'm in the summer I forget how much I love her  
When she's in the groove

Oh, it's a love hate romance  
Cause I could watch her dance  
If I've got my boo-ooo-oo-oooots

A love hate romance  
When I see her dance  
I got on my boots

Got my boots on!

A love hate romance  
I can't feel my hands  
I got on my boots  
Got my boots on!

Winter left a cover  
that I'm gonna end up under  
But I've got my boots

When I'm in the summer I forget how much I love her  
When she's in the groove

Winter left a cover  
that I'm gonna end up under  
But I've got my boots

When I'm in the summer I forget how much I love her  
When she's in the groove

Oh, it's a love hate romance  
Cause I could watch her dance  
If I've got my boots
