Consequence (Face Yourself)

(You know what it's like to feel your heart beating
in your chest so intensely
But you can't even breathe
This is a story
Hideous nightmares)

(I see new visions
And you... will... too...)

Only the damned caress you now
If just to lure you to the depths where they reside
No solace found in distant light that indicates
There is one darkness that never ends

From the pain that haunts you still
See what you truly are
Face yourself
Are you certain what will happen?

Face yourself
See what you truly are
After all it's time
Are you certain what will happen?

From the pain that haunts you still
Face yourself
Face yourself
Are you certain what will happen?

(I see new visions
And you... will... too...)

Is it justice, the despair that weighs
so heavy on your mind?
No comfort found, no place to hide
Devoid of comfort, devoid of calm
No comfort found, no place to hide

From the pain that haunts you still

See what you truly are
Face yourself
Are you certain what will happen?

Face yourself
See what you truly are
After all it's time
Are you certain what will happen?

Face yourself

Face yourself

From the pain that haunts you still
See what you truly are
Face yourself
Are you certain what will happen?

Face yourself
See what you truly are
After all it's time
Are you certain what will happen?

From the pain that haunts you still
Face yourself
Face yourself
Are you certain what will happen?

Face yourself
Face yourself
Face yourself
Face yourself

(I see new visions)
