It took a second for me to realize smooth skin bare  
hand embracing mine we got an ocean view the skies  
so blue but this crowded beach seems made for two it  
feels so perfect as the waves crash in im trying not to  
stare but you caught my eye and now this gorgeous  
scene doesnt seem so nice you blow this place away  
hunny i insist my hand is on your hip waiting for a Kiss  
me softly now my hopes there racing im addicted to  
the sweet scent of your hair your heart is beating i can  
feel it baby it too a few weeks for me to comprehend  
your more than just another passing trend you make it  
feel so right im not as shy i can open up and share my  
life with you are the reason smiles exist at all im trying  
not to stare but you caught my eye and now this  
gorgeous scene doesnt seem so nice you blow this  
place away hunny i insist my had is on your hip waiting  
for a Kiss me softly now my hopes there racing im  
addicted to the sweet scent of your hair your heart is  
beating i can feel it baby ive never felt this way before  
and i forget about everything around me Kiss me softly  
now my hopes there racing im addicted to the sweet  
scent of your hair your heart is beating i can feel it  
baby
